Why should you buy a 2000W 12V inverter?

Take all the comforts of home with you on your travels, confident in the safety and reliability of your power supply. With its pure sine wave output, our 2000W 12V inverter ensures seamless and efficient operation of your appliances, reducing heat and noise for optimised performance.

What can a 2000W inverter run?

A 2000W inverter is a versatile power solution, capable of running a broad range of medium to large electrical devices. This can include kitchen appliances like most microwave ovens or small refrigerators, power tools such as small drill machines and circular saws, and entertainment systems including TVs and gaming consoles.

Can a 100Ah battery power a 2000W inverter?

Conversely, some 100Ah lithium batteries (Enerdrive, Invicta) can power a 1000W inverter and some 200Ah lithium batteries (Enerdrive) will power a 2000W inverter. The great advantage of the power inverter is its ability to surge to power output levels well in excess of its normal continuous ratings.

Are enerdrive ePower inverters good?

Boasting a range of power capabilities, these inverters provide pure sine wave output to ensure peak performance. Trust in the consistency of Enerdrive ePower Inverters, delivering pure sine wave output that guarantees efficient operation for your equipment. See their 2000W most popular model.

Get the best quality Enerdrive ePOWER 2000W Pure Sine Wave Inverter online in Australia at My Generator. We also offer other power adaptors & inverters outside of 2000W inverters. For ...
