This visit presents an opportunity to exchange best global practices in solar energy technologies and electricity storage, supporting Dubai's clean energy objectives.

DEWA advances global clean energy goals with a China roadshow to drive a 1,600 MW solar-plus-storage mega project in Dubai.

Saudi Arabia and the United Arab Emirates are taking advantage of falling prices to load up on Chinese-made battery energy storage systems, so they can boost their renewable ...

A high-level delegation from Dubai Electricity and Water Authority (DEWA), led by MD & CEO HE Saeed Mohammed Al Tayer, has visited the People's Republic of China to ...

Implemented under the independent power producer (IPP) model, it will be one of the world's largest projects to combine solar ...

China is harnessing solar energy through advanced technology to meet clean energy needs of the United Arab Emirates (UAE). Despite its vast oil reserves, the UAE has ...

In May 2023, the Power Construction Corporation of China completed the UAE's wind power demonstration project. The project generates enough electricity annually to meet ...

Implemented under the independent power producer (IPP) model, it will be one of the world's largest projects to combine solar energy and battery storage.

Saudi Arabia and the United Arab Emirates are taking advantage of falling prices to load up on Chinese-made battery energy ...

The visit to China allowed DEWA to learn from Chinese companies that are global leaders in solar energy, battery storage, and advanced energy technologies. The delegation studied ...

China's expertise in renewable technologies, large-scale solar projects, and cost-efficient battery storage makes it an essential partner in Dubai's clean energy roadmap. DEWA ...

Nearly all equipment, from PV modules to cleaning robots and unattended substations, was sourced from China, exemplifying successful green energy collaboration ...

A high-level delegation from Dubai Electricity and Water Authority (DEWA), led by MD & CEO HE Saeed Mohammed Al Tayer, ...

China is harnessing solar energy through advanced technology to meet clean energy needs of the United Arab Emirates (UAE). Despite ...
