Matson is expanding its current fleet of two Aloha Class vessels with the addition of three, new Jones Act-compliant container ...

Discover the benefits and features of Containerized Battery Energy Storage Systems (BESS). Learn how these solutions provide efficient, scalable energy storage for ...

The three largest container ships built in the USA will have a new hybrid energy solution to supply enough clean power for the LNG-fuelled vessels. The operator of the ships ...

Construction is underway at Philly Shipyard for the first of the three new container ships, with vessels scheduled for delivery to Matson in 2026 and 2027.

The containerized solution provides a safe, compact, and space-efficient solution for housing batteries on board a ship, either on the deck or below deck. Multiple containers can ...

Explore innovative shipping container energy storage systems for sustainable, off-grid power solutions. Harness renewable energy storage effectively.

Discover the benefits and features of Containerized Battery Energy Storage Systems (BESS). Learn how these solutions provide ...

What's the Big Deal with Container Energy Storage Systems? a standard shipping container, the same kind you'd see on cargo ships, quietly humming in a field. But instead of holding ...

This study integrates green methanol with biomass boilers, solar PV, wind turbines, and energy storage for large container ships, enhancing energy efficiency and ...

The three largest container ships built in the USA will have a new hybrid energy solution to supply enough clean power for the LNG ...

While you're thinking about this, couldn't you just sail a container ship out in the middle of the ocean filled with battery containers and transfer the energy?

ABB's containerized energy storage solution is a complete, self-contained battery solution for a large-scale marine energy storage. The batteries ...

ABB's containerized energy storage solution is a complete, self-contained battery solution for a large-scale marine energy storage. The batteries and all control, interface, and auxiliary ...

Matson is expanding its current fleet of two Aloha Class vessels with the addition of three, new Jones Act-compliant container ships. The vessels will feature a next-generation, ...

Construction is underway at Philly Shipyard for the first of the three new container ships, with vessels scheduled for delivery to Matson ...
