We manufacture extensive variety of custom BIPV solar panels in size, shape, color, transparency and efficiency. All our PV products can be produced with full or cut solar cells as per demand.

From high-efficiency solar panels to sophisticated solar inverters and batteries, Naps Solar Estonia caters to both residential and commercial needs, ensuring top-tier quality and reliability.

The company claims that its 2-in-1 roofing material with solar modules does not use aluminium frames and offers approximately 9% CO2 emission reductions compared to mainstream solar ...

Discover all relevant Solar Panel Companies in Estonia, including Smartecon and Solarstone

The energy productivity of solar panels installed in Estonia is equivalent to the southern countries, as Estonia's cooler climate increases the efficiency of solar panels.

These panels consist of solar cells sandwiched between two layers of tempered glass, rather than the standard design where the cells are encapsulated between a layer of glass on the front ...

Solarstone building-integrated solar panels (BIPV) perform as regular roofing material while harnessing solar energy. Solarstone replaces traditional roof tiles, shake or shingle roofs with ...

List of Estonian solar panel installers - showing companies in Estonia that undertake solar panel installation, including rooftop and standalone solar systems..

Metsolar produces unlimited variety of tailored BIPV solar panels for Estonia and other regions of EU, that are efficient, cost competitive and have exclusive design possibilities.
