Cero Generation has announced that Delfini, its 100 MW solar PV project in Greece, has reached commercial operation. The project will generate 157 GWh of electricity ...

Independent power producer (IPP) Cero Generation has reached commercial operations at its 100MW Delfini solar PV plant in Greece. Cero, which is part of Macquarie's ...

Greek state-controlled gas supplier, importer and trader DEPA Commercial has completed the tenders for photovoltaic parks of 500 MW ...

This comprehensive guide examines the top solar companies driving Greece's renewable transformation in 2025, from utility-scale developers ...

Greek state-controlled gas supplier, importer and trader DEPA Commercial has completed the tenders for photovoltaic parks of 500 MW overall, OT learned. The 400 MW ...

Greece installed 400 MW of net-metered PV systems in 2024, bringing its cumulative distributed solar capacity to 850 MW. However, ...

Greece installed 400 MW of net-metered PV systems in 2024, bringing its cumulative distributed solar capacity to 850 MW. However, the country shifted from net ...

Greece has emerged as one of Europe's most promising renewable energy markets, blessed with exceptional solar irradiation and consistent wind patterns that make it a ...

Greece is in the midst of a significant solar energy boom, with its solar PV pipeline projected to reach an

impressive 44.8 GW by 2028, according to Fitch Solutions.

November 2023, Greece submitted its NECP with more ambitious and updated targets for renewables and solar: 23.5 GW for all forms of renewables, from which 13.4 GW came from ...

This comprehensive guide examines the top solar companies driving Greece's renewable transformation in 2025, from utility-scale developers to specialized technology providers like ...

Greece saw a record increase in its solar power capacity last year, helping establish the country among the Top 10 European Union members tapping the sun to meet their energy needs.

Greece has emerged as one of Europe's most promising renewable energy markets, blessed with exceptional solar irradiation and ...

Independent power producer (IPP) Cero Generation has reached commercial operations at its 100MW Delfini solar PV plant in ...

Solar power in Greece has been driven by a combination of government incentives and equipment cost reductions. The installation boom started in the late 2000s with feed-in tariffs ...
