If something is high, it is a long way above the ground, above sea level, or above a person or thing. I looked down from the high window. The bridge was high, jacked up on wooden piers. ...

So, let's look at what pumped storage is, how it works, the infrastructure needed for it, the barriers to widespread adoption, and how these kinds of projects can help drive the energy transition ...

Energy storage in underground tunnels is revolutionizing how we manage electricity grids, offering solutions for renewable energy's biggest headache: intermittency. ...

By integrating Heracles' high-performance membranes and stacks into Jiecheng's mobile crane systems, the collaboration aims to redefine the mobile energy supply system. ...

This work focuses on tunnels equipped with ground heat exchangers, typically called energy tunnels, to serve as seasonal, medium-temperature underground thermal energy storage ...

This study aimed to identify impacts of changes in subsurface environments on the thermal energy storage performance of underground tunnels used as heat exchangers.

Containerized energy storage is an Advanced, safe, and flexible energy solution featuring modular design, smart fire protection, efficient thermal management, and intelligent control for optimal ...

Pertaining to (or, especially of a language: spoken in) in an area which is at a greater elevation, for example more mountainous, than other regions. I told him about ...

HIGH definition: having a great or considerable extent or reach upward or vertically; lofty; tall. See examples

of high used in a sentence.

The world's first Carnot battery prototype is being built in Stuttgart at the Institute of Engineering Thermodynamics within the German Aerospace Centre (DLR) together with the European ...

This study aimed to identify impacts of changes in subsurface environments on the thermal energy storage performance of underground ...

Over the long-term operation of subway systems, there is potential for thermal accumulation in the ground surrounding the tunnels. In this paper, a novel solution for thermal ...

high adjective (IMPORTANT) B2 having power, an important position, or great influence: an officer of high rank

high /haɪ/ adj. and adv., -er, -est, n. lofty: a high wall. (of things) having a specified height: The tree is 20 feet high. elevated: a high ledge. greater than or going beyond the usual degree, ...

From the Sahara's solar farms to Southeast Asia's manufacturing hubs, high-temperature resistant energy storage containers are redefining what's possible in challenging environments.

High (adjective, informal): Intoxicated by drugs or alcohol. The word "high" is a versatile term with multiple meanings and applications, spanning physical elevation, emotional ...
