---

Our Silicon Carbide inverter has the highest frequency switching rate that is currently possible and is 800V compatible. This means faster power transfer and a lighter system compared to 400V ...

Explore Eaton's high-voltage inverter converts direct current (DC) from the batteries or generator to alternating current (AC) to power the traction drive motors.

With an 800 VDC system, this GaN-based inverter is tailored for high-voltage applications such as EV powertrains, where efficiency is paramount. The design delivers peak ...

It converts Direct Current (DC) from the battery to Alternative Current (AC) to power the electric Motor. It can also be used in reverse mode to charge the battery by transforming ...

Recognizing this trend, Punch Powertrain has developed the IV5--a cutting-edge 800V high-power inverter. This product leverages the ...

It converts Direct Current (DC) from the battery to Alternative Current (AC) to power the electric Motor. It can also be used in reverse ...

Coil DriverTM High Voltage 800V Motor Controller The world's most intelligent electric motor inverter solution. Exro Technologies' 800V Inverter is an intelligent motor controller, created by ...

Our 800-Volt Silicon Carbide Inverter for Electrified Vehicles uses an innovative, double-side cooled silicon carbide (SiC) based power switch ...

Electric Vehicle 800V Silicon Carbide (SiC) traction inverter reference design to accelerate, de-risk and simplify ASIL D customer design.

This EV traction inverter reference design has been tested jointly with Hardware in the loop (HIL) setup at Wolfspeed Munich Laboratory. Under an 800-volt battery condition a ...

Our 800-Volt Silicon Carbide Inverter for Electrified Vehicles uses an innovative, double-side cooled silicon carbide (SiC) based power switch that delivers the higher power densities and ...

TIDM-02014 is a 800-V, 300kW SiC-based traction inverter system reference design developed by Texas Instruments and Wolfspeed provides a foundation for OEMs and design engineers to ...

Recognizing this trend, Punch Powertrain has developed the IV5--a cutting-edge 800V high-power inverter. This product leverages the company's extensive expertise in ...
