Latvenergo, a state-owned energy company based in Latvia, plans are to expand its generation portfolio with the development of ...

As we approach Q4 2025, industry watchers are keeping tabs on Latvia's first gigafactory for battery cells. When operational, it'll slash import costs by 60% and create 800+ skilled jobs.

--- SunContainer Innovations specializes in high-performance energy storage systems, serving clients across 30+ countries. Our Latvian-engineered supercapacitors combine innovation with ...

Our utility-scale energy storage seamlessly integrates with critical energy systems, driving revenue with optimised assets and delivering proven ...

Amid the Baltic region's stringent grid stability requirements, Kehua's C& I liquid-cooled S³-EStore systems have been deployed at a Latvian industrial facility, ensuring ...

The first projects will be realised at Latvenergo production sites in Latvia, starting with a smaller-scale battery at Latvenergo CHPP ...

Latvenergo, a state-owned energy company based in Latvia, plans are to expand its generation portfolio with the development of battery energy storage systems (BESS), ...

The first BESS projects are being implemented in Latvia and at Latvenergo production sites - starting with the smaller-scale BESS at Latvenergo AS CHPP-1 and ...

When a 200MW coastal wind project faced grid connection challenges, a Latvian power storage manufacturer

deployed modular lithium-ion batteries with dynamic response capabilities:

Latvia state-owned utility and power generation firm Latvenergo intends to deploy 250MW/500MWh of BESS in the next five years.

Latvia's energy storage sector is rapidly evolving to meet EU sustainability goals. This article explores companies developing energy storage power stations in Latvia, market trends, and ...

The first projects will be realised at Latvenergo production sites in Latvia, starting with a smaller-scale battery at Latvenergo CHPP-1. The company will then head for bigger ...

Latvia state-owned utility and power generation firm Latvenergo intends to deploy 250MW/500MWh of BESS in the next five ...

Our utility-scale energy storage seamlessly integrates with critical energy systems, driving revenue with optimised assets and delivering proven reliability, flexibility, and safety. We have ...
