How will a new solar power plant work in Madrid?

It will be able to provide clean electricity to around 87,000 homes, preventing the annual emission of more than 83,500 tonnes of CO₂ into the atmosphere. With an installed power of 75 MW (129,600 panels), this plant will be located in the Madrid municipalities of Fuenlabrada and Parla and will involve an investment of around EUR31 million.

How many megawatts are in Madrid's new solar power plant?

Located in the municipalities of Fuenlabrada, Humanes de Madrid, Parla, Pinto and Torrejón de Velasco, they will have a combined installed capacity of 305 megawatts (MW) and their commissioning will involve an investment of over EUR126 million.

Who is Edisun power?

The Edisun Power group finances and manages solar plants in several European countries. The company started its activity in this sector in 1997 and has been listed on the Swiss stock exchange since September 2008. The company currently owns 36 solar plants in Switzerland, Germany, Spain, France, Italy and Portugal.

Will Edisun buy a special purpose vehicle from SmartEnergy?

Edisun is also seeking to acquire additional Special Purpose Vehicles from SmartEnergy to support energy supply to data centers. This includes securing a grid connection for additional energy purchases. In return, Edisun is selling its 159MW Italian project portfolio to SmartEnergy.

A new solar power plant has officially opened near Madrid, Spain, marking a pivotal advancement in the nation's renewable energy efforts. This large-scale facility is among ...

Swiss energy company Edisun has announced plans to build a 941MW solar park northwest of Madrid to provide power for AI ...

Smartenergy, a Swiss multinational specialized in renewable energies, intends to build one of the largest photovoltaic plants in Spain ...

The Madrid region has the highest energy consumption in Spain. So, the demand for solar power is therefore huge. Swiss project ...

Adolfo Suárez Madrid-Barajas Airport solar farm is a solar photovoltaic (PV) farm in pre-construction in Madrid, Área metropolitana de Madrid y Corredor del Henares, Spain.

The Swiss company Edisun Power has reached an agreement with Smartenergy Group for the purchase of three solar parks near Madrid with a capacity of 941 megawatts, ...

In line with its commitment to a green and fair energy transition, Capital Energy currently has a portfolio of wind and solar projects in the Iberian Peninsula with around 35 ...

Renewable energy producer Edisun Power is building a large solar plant with a capacity of 941 MWp in the Madrid region, and which will be used exclusively to supply ...

According to Edisun, discussions are underway with a consortium of banks to finance the project's construction. If Edisun cannot ...

Swiss energy company Edisun has announced plans to build a 941MW solar park northwest of Madrid to provide power for AI datacentres.

According to Edisun, discussions are underway with a consortium of banks to finance the project's construction. If Edisun cannot secure financing, the original owner, ...

Smartenergy, a Swiss multinational specialized in renewable energies, intends to build one of the largest photovoltaic plants in Spain between Toledo and Madrid.

Renewable energy producer Edisun Power is building a large solar plant with a capacity of 941 MWp in the Madrid region, and which ...

The Madrid region has the highest energy consumption in Spain. So, the demand for solar power is therefore huge. Swiss project developer Edisun Power Europe is now ...

European solar power producer Edisun Power plans to direct power from its 941MW Fuencarral solar power plant in Madrid to data centers in the region.
