How many Fonroche solar street lights are there?

Working with Dalkia Solutions, the city deployed over 250 Fonroche solar street lights in the International District since 2020. These solar lights, which required no underground wiring, provided an efficient and cost-effective solution to the city's long-standing lighting needs.

Who makes the best solar street lights?

Your reputation is important to us at Solar Lighting International and we manufacture the highest quality, best solar street lights available. We will collaborate with you to design a solar street lighting system tailored to your requirements and budget.

Does Fonroche offer solar street lights?

Fonroche offers fixtures with dark-sky certification to create your solar roadway lighting layout. With 365 Nights of Autonomy, Fonroche solar street lights, you gain energy independence from the grid. Our lights ensure uninterrupted operation even during power outages, providing reliable lighting when it's needed most.

What are solar powered street lights?

Solar powered street lights are fast and easy to implement, have greater reliability during power outages and don't add emissions. Our solar street lights use advanced photovoltaic technology to maximize energy capture, even in low-light conditions.
