---

We are a Danish solar energy company headquartered in Copenhagen. We develop, construct, and operate utility-scale solar parks across Europe on ...

The report communicates a shared vision of the overall trajectory of the future power system up to 2050 and presents various strategies to address the emerging challenges. It also provides a ...

In recent years, the Nordic countries have made significant strides in incorporating solar energy into their renewable energy mix. This blog delves into the key trends and ...

Discover the Nordic grid system's intricacies and seize solar prospects across Norway, Sweden, Denmark, and Finland in this comprehensive guide.

The report communicates our shared perspective on key development trends in the power system and strategies to address emerging challenges. It also provides a status update on ongoing ...

We are a Danish solar energy company headquartered in Copenhagen. We develop, construct, and operate utility-scale solar parks across Europe on our mission to make everyone benefit ...

During the recent surge in solar PV installations, the Nordic countries - Sweden, Norway, Finland, and Denmark - have increasingly embraced solar PV technology, defying their northern ...

This study analyses how the rapid growth of utility-scale solar PV in the Nordic region will impact its economic viability by 2030, using Finland as a case study. The analysis is based on ...

In the report we present our perspective on the overall trajectory of the Nordic power system, which is undergoing significant changes with the expansion of renewables, ...

Utility-scale solar projects in Sweden, Finland, and Denmark are flourishing, while battery storage and AI are reshaping what's possible for grid stability and long-term power ...

In the report we present our perspective on the overall trajectory of the Nordic power system, which is undergoing significant ...

The Nordic region is experiencing a surge in fossil free electricity demand, with Sweden and Finland leading the way in solar power expansion. While the Nordics are known for their strong ...
