Are collapsible containers airworthy?

Yes, all our collapsible containers comply fully with civil aviation regulations. They are completely airworthy, and they can be restrained directly by the Cargo Loading System of any compatible aircraft. Are special tools needed to operate a collapsible ULD? You don't need any special tools to operate our collapsible containers.

Can air cargo containers be folded and stacked when empty?

To create certified air cargo containers that can be folded and stacked when empty. Now you don't need to leave your ULDs halfway around the world because a return flight is too expensive. And you can take one step closer to zero-carbon flying. World's first inflatable solution for Unit Load Devices is still in development.

What is a 50 lb TRY Fold shipping box?

The TRY Fold 50 lb. Airline Shipping box is designed to protect fresh or frozen perishables for safe transporting. It features a durable double-wall corrugated outer box with a 3/16" foil/bubble liner that is glued inside the box. The liner comes with double-sided tape to allow you to close the liner once filled with your product.

What is a collapsible container?

Collapsible containers can be used to transport cargo in the usual way, but they can also be folded and stacked when you need to store or reposition them. This feature maximises your ULD storage capacity and lets you relocate empty ULDs more efficiently and cost-effectively, which in turn helps rebalance ULD stocks around the world.
