HighJoule is providing Romania with green energy solutions, including four 46kW foldable solar systems and five 100kW/215kWh energy storage units, which offer flexible and rapid ...

From construction site offices to portable classrooms, storage units, and mobile accommodation, our prefabricated containers are built with robust materials and designed to meet Romanian ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail ...

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems. The ...

With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours. Go big with our modular ...

Designed for mobility and fast deployment, our foldable solar power containers combine solar modules, storage, and inverters into a single transportable unit. Ideal for emergency scenarios, ...

We provide end-to-end EPC services for solar installations in Romania, including feasibility studies, engineering design, procurement of high-quality materials, and expert construction ...

This project is located in Romania and provides local customers with an integrated, mobile photovoltaic-storage power solution. The system consists of four 10-foot 46KW foldable ...

Gama de containere solare mobile redefineste energia electrica în locatie prin valorificarea energiei
