During most of history, humans were too busy to think about thought. Why is "most of history" correct in the above sentence? I could understand the difference between "Most of ...

Here "most" means "a plurality". Most dentists recommend Colgate toothpaste. Here it is ambiguous about whether there is a bare majority or a comfortable majority. From the 2nd ...

Welcome to the most wildest show on earth. Someone pointed out the most wildest and I was wondering if it was OK to use most with a word that ends in -est together.

Overview Applications Main components Physical characteristics Comparison to electric batteries See also Further reading External links In the 1950s, flywheel-powered buses, known as gyrobuses, were used in Yverdon (Switzerland) and Ghent (Belgium) and there is ongoing research to make flywheel systems that are smaller, lighter, cheaper and have a greater capacity. It is hoped that flywheel systems can replace conventional chemical batteries for mobile applications, such as for electric vehicles. Proposed flywh...

The adverbial use of the definite noun the most synonymous with the bare-adverbial most to modify an entire clause or predicate has been in use since at least the 1500s and is an ...

In 2010, Beacon Power began testing of their Smart Energy 25 (Gen 4) flywheel energy storage system at a wind farm in Tehachapi, California. The system was part of a wind power and ...

Our precision-engineered flywheels maintain their rotational speeds with remarkable efficiency, preserving energy for when it's needed most. We're making clean energy affordable by ...

Most is defined by the attributes you apply to it. "Most of your time" would imply more than half, "the most time" implies more than the rest in your stated set. Your time implies ...

Located on seven acres within a couple of miles of the Massachusetts state line, the 3.5 acre storage facility consumes no fuel and creates no emissions by using flywheels ...

I've recently come across a novel called A most wanted man, after which being curious I found a TV episode called A most unusual camera. Could someone shed some light on how to use "a ...

Most is what is called a determiner. A determiner is "a word, such as a number, article, personal pronoun, that determines (limits) the meaning of a noun phrase." Some determiners can only ...

By storing kinetic energy as the flywheel spins, energy can be rapidly discharged when needed. The robust design, reinforced by high-strength materials, ensures durability ...

Flywheels can quickly absorb excess solar energy during the day and rapidly discharge it as demand increases. Their fast response ...

Flywheels can quickly absorb excess solar energy during the day and rapidly discharge it as demand increases. Their fast response time ensures energy can be dispatched ...

In Shanxi Province in China, Shenzhen Energy Group constructed a flywheel energy storage facility comprised of 120 high-speed magnetic levitation flywheel units, with a ...

Beacon's 20-MW system has been designed to provide frequency regulation services by absorbing electricity from the grid when there is too much, and storing it as kinetic energy in a ...
