What are Russian circuit breakers made of?

Russian circuit breakers commonly use high-purity copper or silver-copper alloys to maximize electrical conductivity and minimize resistive heating. In premium models--particularly air circuit breakers and high-capacity molded case breakers--contacts are often silver-plated.

What is a circuit breaker?

A circuit breaker is a critical safety device in electrical systems, designed to protect circuits from damage caused by overloads, short circuits, or ground faults. In Russia and across the CIS region, various types of circuit breakers are used in residential, commercial, and industrial applications.

How long does it take for a square D QO2020 20A breaker to ship?

Expedited shipment came in 27 hours! This breaker was brand new and worked perfectly. Square D tandem breakers I ordered 4 of the Square D QO2020 20A tandem breakers without the hook for a project. I received them nicely boxed with bubble wrap and delivered close to the estimated delivery time.
