Will bifacial solar panels be exempt from Section 201 duties?

President Biden issued Proclamation 10779, ending the exemption from Section 201 duties on bifacial solar panels imported on or after June 26. Find out if your products are affected.

When can I import bifacial solar panels?

The affected solar cells and modules are classified under the following Harmonized Tariff Schedule (HTS) codes: Importers who signed contracts by May 16, 2024, may import bifacial solar panels without Section 201 duties from June 26, 2024, to September 23, 2024, provided the contract terms have not changed.

Will bifacial solar panels lose exemption?

In addition to bifacial panels losing their exemption, the Biden Administration said it will raise the tariff-rate quota (TRQ) of silicon solar cells by 7.5 GW, if needed.

Did Biden remove the bifacial solar panel exemption?

The Biden Administration has released a fact sheet detailing multiple solar panel related policies, including the removal of the bifacial solar panel exemption. This exemption previously allowed certain solar panels to bypass the Trump-era 15% tariff.

President Biden issued Proclamation 10779 on June 21, 2024 removing the exemption from Section 201 duties on solar cells for "bifacial solar panels" that are imported on ...

The Office of the President has turned its focus to solar panels, announcing the removal of the bifacial solar panel Section 301 tariff exclusion and addressing issues of ...

In a significant policy shift, the Biden administration has reinstated tariffs on imported bifacial solar panels, reversing a two-year exemption. This move, driven by domestic ...

The Office of the President has turned its focus to solar panels, announcing the removal of the bifacial solar panel Section 301 ...

The 201 safeguard was so weakened as to be largely irrelevant through the bifacial exclusion. Lifting the exemption reinstates a 15% tariff, providing important, but sadly still insufficient, ...

A bifacial solar cell (BSC) is a photovoltaic solar cell that can produce electrical energy from both front and rear side. In contrast, monofacial solar cells produce electrical energy only when ...

Importers who signed contracts by May 16, 2024, may import bifacial solar panels without Section 201 duties from June 26, 2024, to September 23, 2024, provided the contract ...

In a significant policy shift, the Biden administration has reinstated tariffs on imported bifacial solar panels, reversing a two-year ...

The exclusion from solar safeguard tariffs for bifacial solar panels -- originally meant to help utility-scale installations -- is about to end, the Biden administration announced ...

The Biden Administration today put imported bifacial solar panels back under Sec. 201 tariffs, after the specialty solar panels enjoyed a two-year exemption from extra duties first ...

The purpose of this message is to provide guidance to modify the Section 201 action by revoking the exclusion of bifacial panels and applying the safeguard tariff to bifacial ...

Today's decision means that imported bifacial modules are once again exempt from Section 201 tariffs, effective immediately. The Section 201 tariffs are back to 15% for this ...

A bifacial solar cell (BSC) is a photovoltaic solar cell that can produce electrical energy from both front and rear side. In contrast, monofacial ...

The purpose of this message is to provide guidance to modify the Section 201 action by revoking the exclusion of bifacial panels and ...
